

## SUMMARY

I am a self-taught developer and passionate about science, math and technology. I graduated in chemical engineering from Université de Sherbrooke. I am a very resourceful person with an attention to detail and I have excellent people skills. I am also perfectly bilingual. Please consult my [LinkedIn](#) and [GitHub](#) profiles for more information.

## TECHNICAL SKILLS

JavaScript (React, jQuery, Node.js), HTML, CSS (Bootstrap, SASS), Git, Python, Matlab

## PROJECTS

**Simon Game** (<https://github.com/ashouc/simongame>)

- Replicated the features found in a real-life Simon game using HTML, CSS, Font Awesome, JavaScript and jQuery
- Built the data structure in order to execute the generated pattern synchronously while the overall program was executed asynchronously

**Contact Book** (<https://github.com/ashouc/contacts-list>)

- Created a SPA to collect and log contacts using HTML, CSS, Font Awesome, JavaScript and jQuery
- Built the server response to create, update, view full profile and delete contact

More projects are available on my [GitHub](#) profile

## PROFESSIONAL EXPERIENCE

Freelance Front-End Developer

[EmilieDurville.com](#)

July 2017 - Current

- Developed & designed a responsive landing page using HTML, CSS, Font Awesome and JavaScript (with jQuery)
